June 30, 2016 in Astana took place a sectional meeting of the expanded board of the Ministry of Education and Science of the Republic of Kazakhstan "National education statistics system and international development indicators".

Discussion on education statistics was stipulated by the implementation of the new State program of development of education and science for 2016-2019 and the adoption of the 17 sustainable development goals until 2030 by 193 countries of the world. 42 new target indicators of fourth Global Goal on "Quality education" were discussed. These indicators will be integrated into the national education statistics.

The meeting discussed issues of methodological and technical support for the collection of institutional statistics in the National Education Database information system. Akmola oblast representatives shared regional experience of formation of statistical information on education. The participants of the section were also denoted about urgent questions of optimization of administrative reporting of education.

Sectional meeting was organized by JSC "Information-Analytical Center" of the Ministry of Education and Science of the Republic of Kazakhstan. The representatives of state bodies, international organizations, NGOs, and heads of the Departments of control in education and the Departments of education of Astana, Almaty, attended the meeting.
